Accurate design of lighting elements

Make each space a special sound

Accurate planning of building spaces

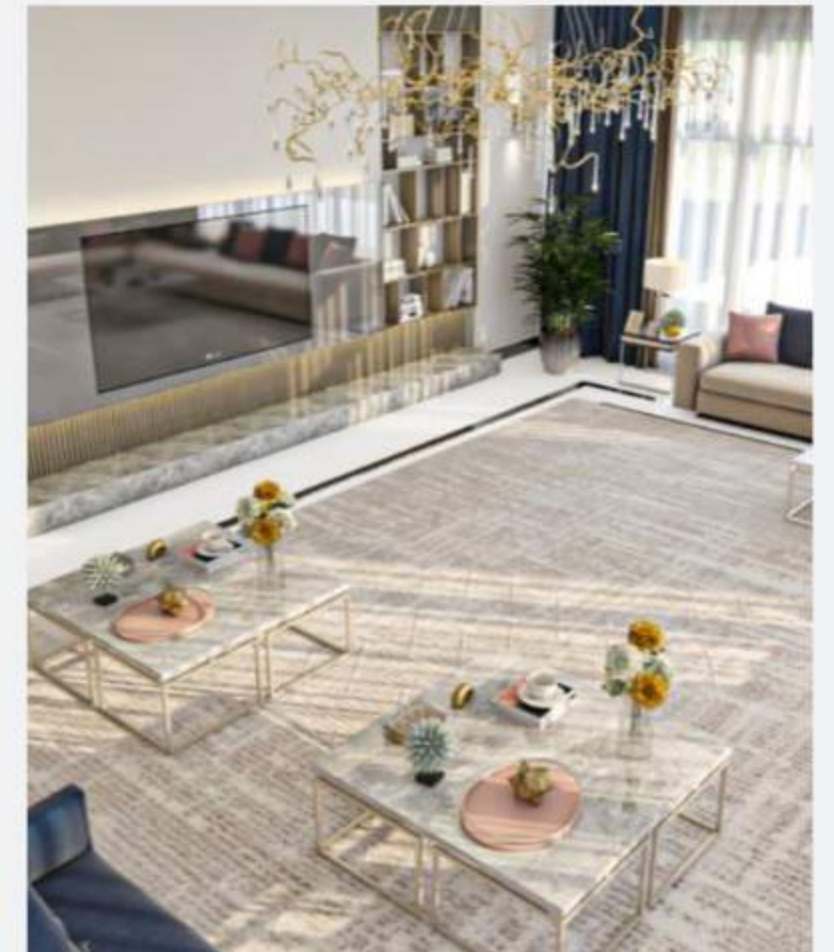

INTERIOR DESIGN

Interior design is defined as the professional and comprehensive practice of creating interior environments that meet, protect and respond to human needs.

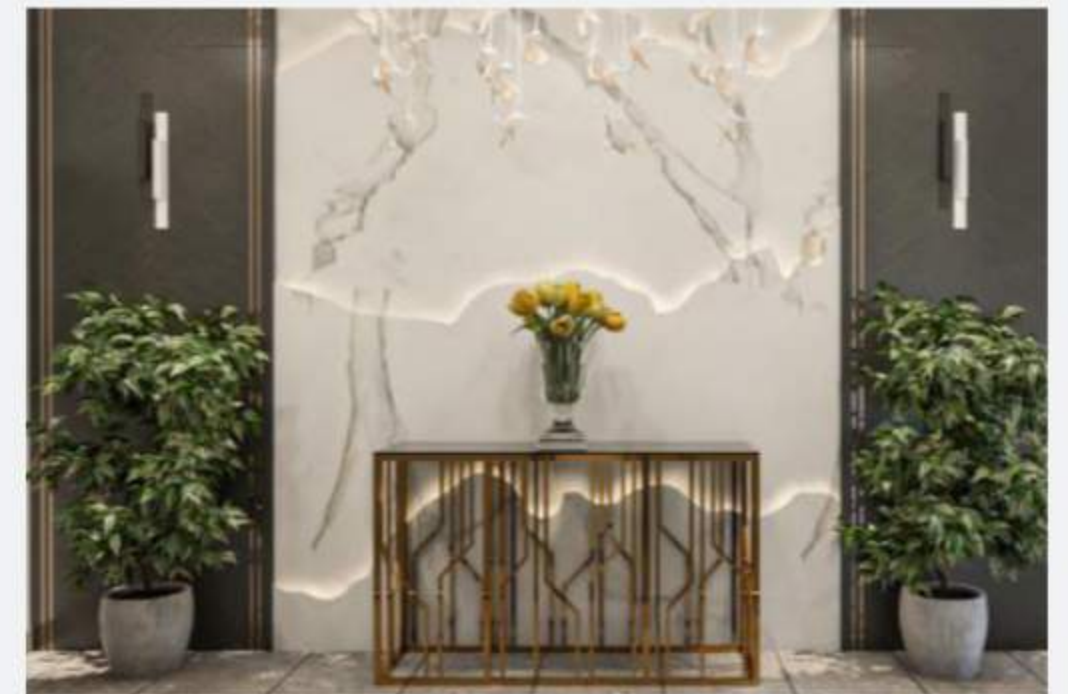

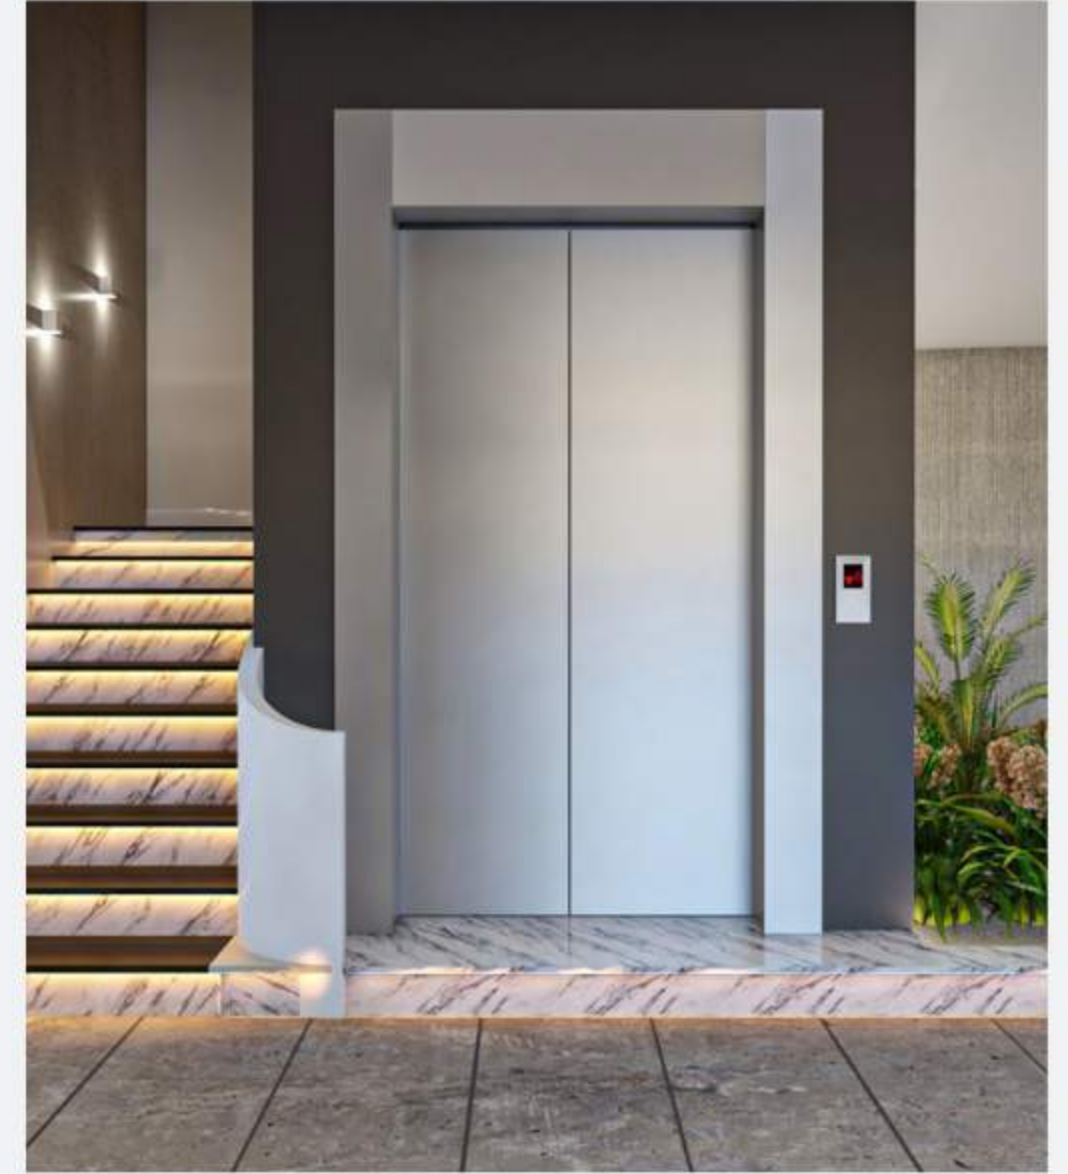

What Is the Path to Understanding

I create a unique experience by reaching compromises between the customer's requirements and appropriate architectural solutions, and choosing ideal color palettes that suit the customer's comfort without disturbing the mood.

The entrance of the house is what makes the overall impression of the house.

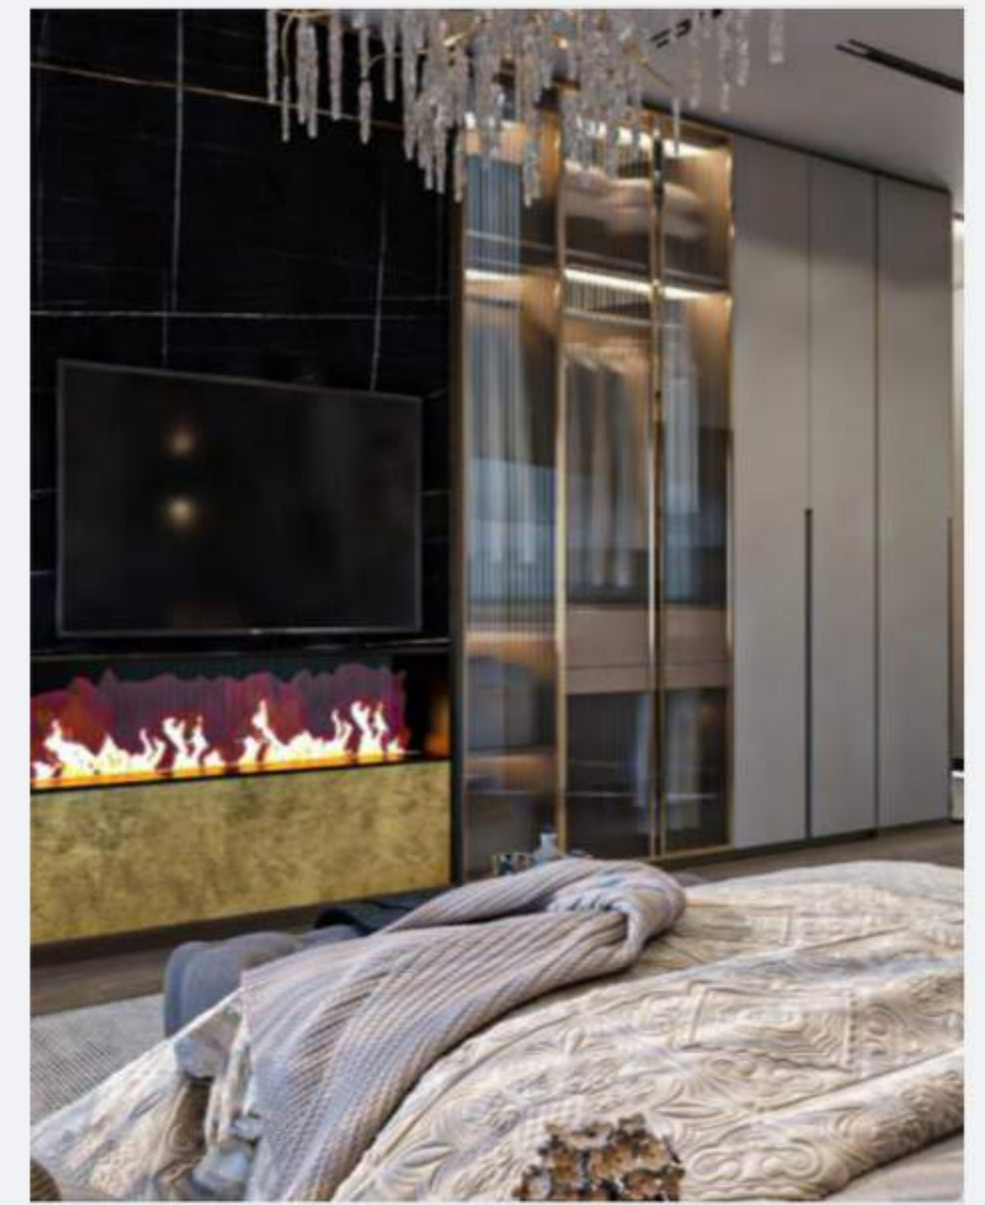

What Is the Path to Understanding

I create a unique experience by reaching compromises between the customer's requirements and appropriate architectural solutions, and choosing ideal color palettes that suit the customer's comfort without disturbing the mood.

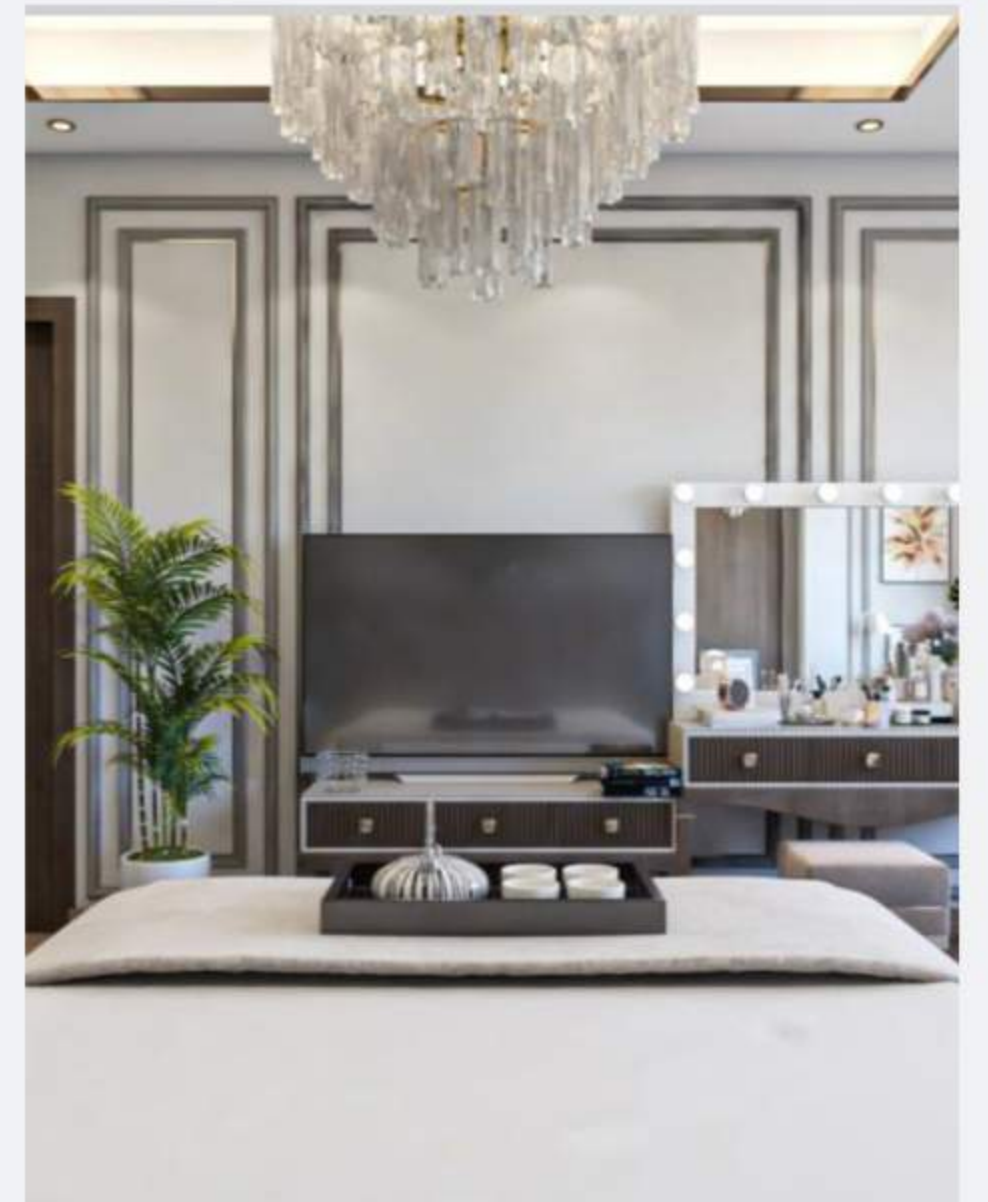

As Close As It Gets

design designs as close as possible to reality, which creates an experience that simulates what will happen in the future to create a better future

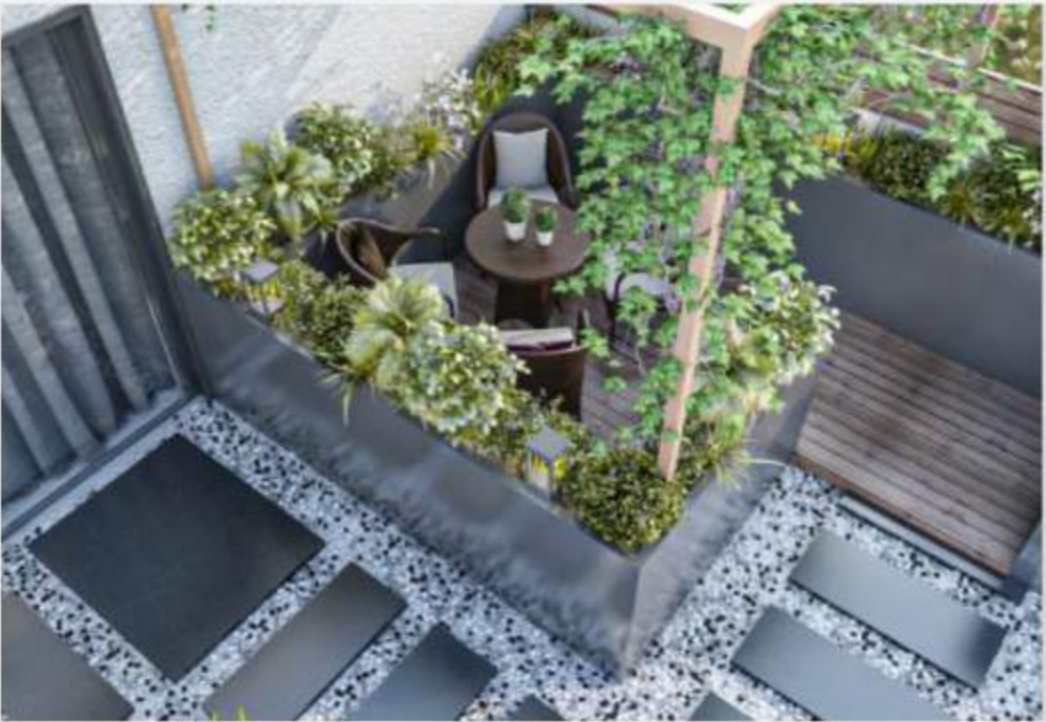

strive to reach luxury is my goul.

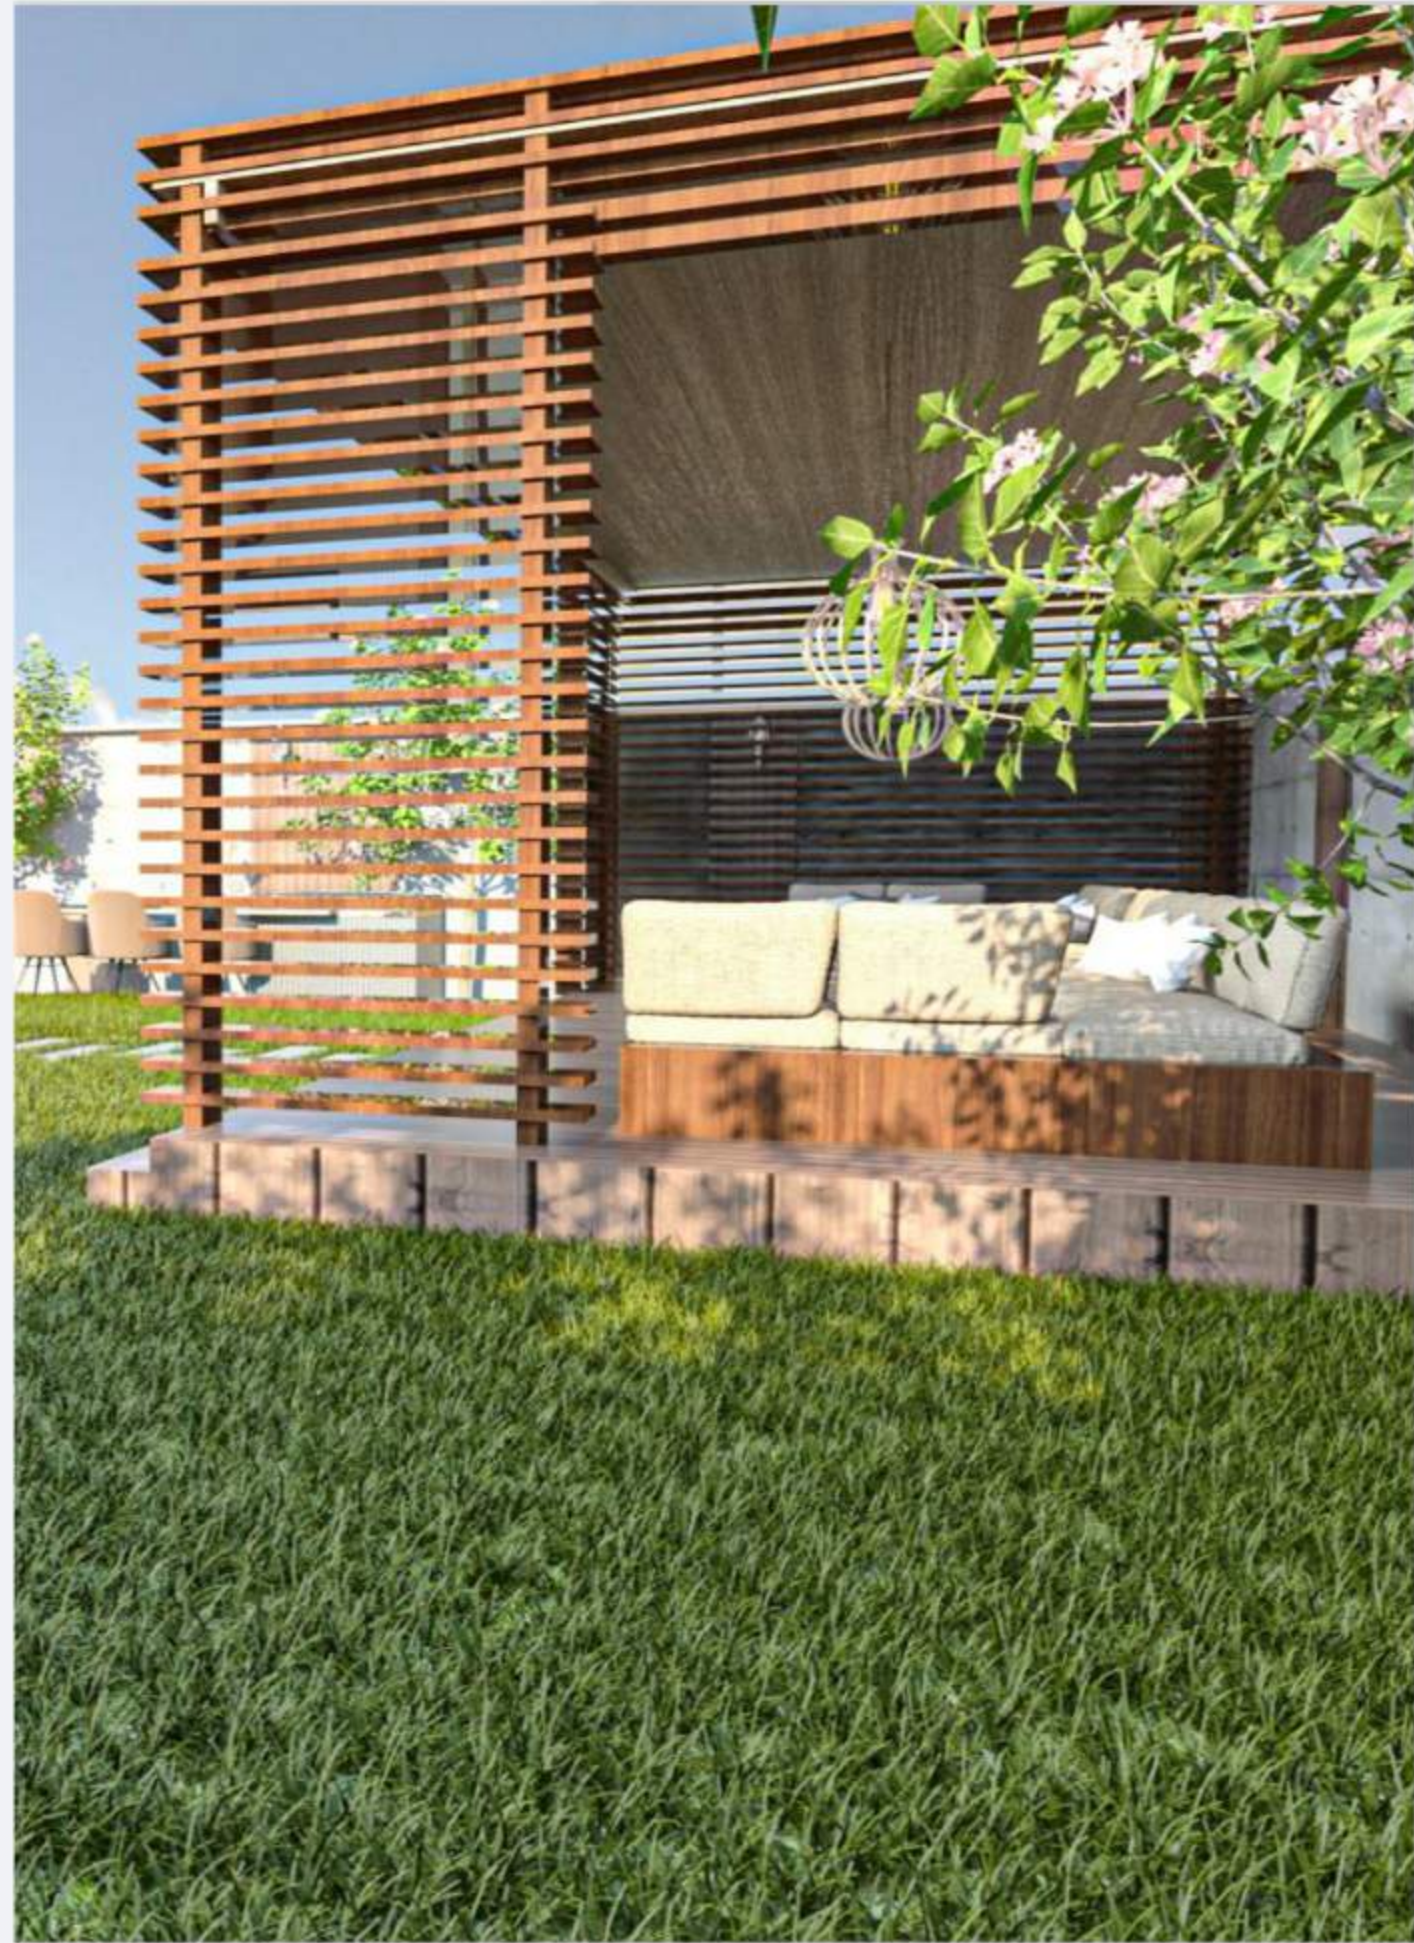

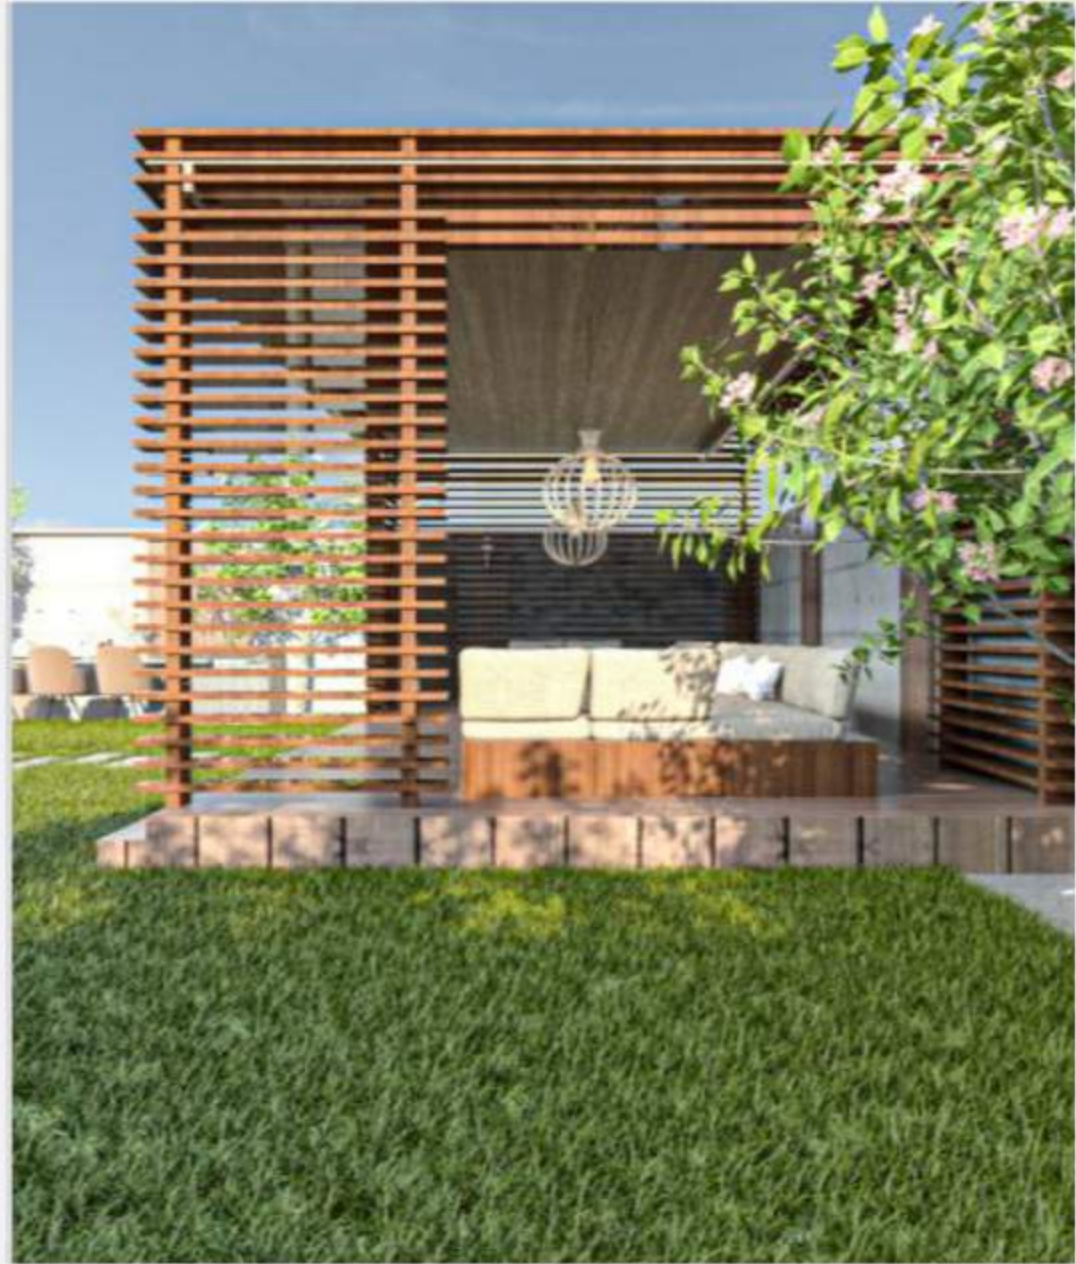

my goal is to reach luxury.

ADMINISTRATIVE AND COMMERCIAL

EXTERIOR DESIGN

Exterior design, originally a Latin word, refers to the external appearance of a specific object. People often initially claim that internal beauty is more important. However, in reality, we value external beauty as much as internal beauty.
